I/O SECTION

- Available on the panel:
 - 1 RS232/C (or optionally RS485) bi-directional 9-pin port for PC.
- Available in the indicator:
 - 1 RS232/C port configurable for connection with printer.

WIRELESS WHEEL/AXLE WEIGHING SYSTEMS

- Thanks to the DFWKRPRF repeater combined with the "MSTSLV" optional software, it is possible to manage up to 20 WWSRF platforms fitted with built-in radio module, with recording of the weight of each wheel and calculation of the vehicle total weight.

APPROVAL WITH CE-M SERIES PLATFORM

- The weight of the single platform is legal for trade.
- The total weight of the vehicle is legal for trade depending on the application:
 - The wheel weighing systems, with a number of platforms equal to the number of vehicle's wheels, are approved, because the weight of the vehicle is determined in only one weigh.
 - The axle weighing systems are for internal use only.
- The CE-M division in which the total weight of the vehicle is indicated in the wheels weighing systems (4 platforms) is equal to the sum of the single platforms' divisions, rounded.
Example: with 4 approved platforms with division 200g, the approved sum weight will be indicated with division 1kg.
